Denver City Council & Denver City Planning have designated Mayfair Town Center for zoning assessment and redevelopment like LoDo before Coors Field.

- Washington Mutual Bank
- Starbucks
- Grocery shopping and restaurants
- City Floral
- Colfax Avenue recently designated an Enterprise Zone by State of Colorado

LOCATION & NEIGHBORHOOD

OVERVIEW

The **Oneida Lofts** are 15 newly converted loft-style residences in Central Denver that offer innovative loft living in a serene, residential setting. The homes are priced from the low 200's. With simple and intelligent space planning, each loft includes two bedrooms, and several have second story mezzanines. The building has no common area hallways. Each loft has its own private entrance, and most have private patios. Secured parking is available on site, with the option of purchasing a surface space or garage unit. The lofts have open floor plans, large kitchen and living areas, high ceilings, and most have an additional bedroom area located up a flight of stairs. Skylights bring light into the right places, and massive walls of windows flood the living areas with plenty of natural light.

BUILDING HISTORY

Built in 1956, the original *Montclair Town Hall* site and *Foster's Frosty Foods* building was developed as a deep freeze cold storage facility for small businesses, restaurants and families. From 1974 to 2004, *The Broker Restaurant* parent company owned and occupied the building as offices, cold storage, and a bakery.

VISION & DESIGN

COMMON AREAS

- 12 private garage parking spaces
- 15 surface parking spaces
- Two intercom secured pedestrian gates
- Remote control auto gate
- 6 foot horizontal plank security fence perimeter
- Professional custom landscape includes a Zen Fusion Courtyard with gas fire pit, 5x7 swing bed, planter boxes, planting beds and benches
- Private entries for each home
- Private patios or balconies for most units

CONSTRUCTION

- Solid block exterior walls
- Green glass openable wall system
- Separate garage with metal roof, individual stalls
- Individual furnaces and hot water heaters
- Structured wiring system for high speed internet and pre-wired with CAT5 for home networking

KITCHENS

- Laminated counter tops
- Concrete bar tops
- Stainless steel appliances
- 13 inch backsplash

INTERIORS

- Minimum 10 foot ceilings in main area, 8.5 foot beneath Mezzanines.
- Individual heating and A/C coils installed, A/C condenser available as upgrade.
- Full size stack washer/dryer hook-up
- Acoustically insulated unit separation walls exceeding minimum building code.
- Chrome and satin nickel hardware
- Wiring for telephone and cable outlets in every bedroom and office

BATHROOMS

- Oversized 36" bathtub - standard
- 3x5 inch ceramic tile surround - standard

UPGRADES

- Hardwood and carpet
- Concrete and granite countertops
- Cabinets
- Raised living platform
- Sky light
- Contemporary custom lighting package
- State of the art climate control package including 1 ton A/C condenser

VISION AND DESIGN

Our conversion from warehouse to lofts carries this historic building's 1950's exterior into the 21st century. Free flying architectural features have been added with inverted columns, aluminum wrapped green glass windows, and open floor plans.

This private community is belted by a horizontal plank wooden fence, featuring Asian influenced gates which open into lush landscaped gardens and on-site secure parking.

*plus utility assessment

Square footage calculated using BOMA method: measured from center of demising walls to the predominate interior face of exterior walls. As an example: the south wall of unit 1 is measured from the center of the block wall because in this case the predominate (>50%) face would be the face of glazing. The stair is counted on 1st level only.
